THE BARBERIANS EXPERIENCE

“Discover a complete grooming series with good old Copenhagen values”

OLD-FASHIONED GROOMING FOR THE MODERN GENTLEMAN

Barberians is a Danish series of old-fashioned, authentic grooming products for the modern gentleman.

Barberians is all about authenticity and the classic grooming experience. All products are developed from scratch with eco-friendly, organic ingredients to ensure the best quality. And with the complete series you are guaranteed a unique, authentic grooming experience. Barberians is with you from the initial preparations to the final touch. In addition, Barberians is always up-to-date regarding new trends in the world of grooming, providing tips,

guides and advice on everything from skin care to shaving.

WHO IS BARBERIANS?

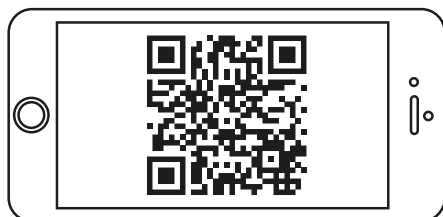

- 01.** Barberians is a series of quality, old-fashioned grooming products.
- 02.** Organic, natural and authentic ingredients.
- 03.** Everything from idea through design and final touch happens in Denmark.
- 04.** An original brand focusing on carefully selected materials and ensuring a high quality.
- 05.** A wide range of products ensure a complete grooming experience.

Barberians is a series of quality, old-fashioned grooming products manufactured in Denmark. With a clear focus on originality, quality and ecology, we offer an authentic grooming experience for the modern gentleman. However, to us, it is not just about the product, but also the experience of using it. With the elegant and masculine expression at heart, we share our knowledge and

know-how to ensure a unique experience. Barberians was founded in 2014 in Copenhagen following an inspiring stay in California. Encouraged by the American barber culture, the idea was to create a masculine universe focusing on the joy and experience of using authentic, high-quality grooming products.

MUCH MORE THAN MODERN SHAVING

The story of Barberians goes back to the days when men were men and Vikings were barbarians. Hair and beard were left untamed in this era characterized as raw and barbaric. Barberians takes you back to the roots, only in a more fashionable version. It is time to tame the barbarian.

In recent years, barbershops have seen a renaissance across the world and also in the streets of Copenhagen, the characteristic barbershops can be found. Barberians sets out to explore the history of Copenhagen and highlight old traditions, classic design and product quality. The modern gentleman is masculine and has a stylish look with attention to detail. Nothing is left to coincidences – neither is the shave. This is the story about the meeting between the barbarian and the barber, the barbarian and the gentleman.

Barberians offers a touch of the values of old Copenhagen with an exclusive, authentic grooming experience.

THE 7 BIGGEST MISTAKES WHEN WET SHAVING?

Poor preparation

It takes up to three minutes before the skin is cleaned and hydrated for shaving. Wash with lukewarm water and remember to use a moisturising oil before shaving.

Ignoring the direction of the beard

It is important to remember that the beard grows in many different directions. We recommend that you shave with the hairs to avoid ingrown hairs.

Aftershave with alcohol

Patrick Bateman in American Psycho: "I always use an aftershave without alcohol, because alcohol dries your face out and makes you look older." And he is actually right.

Dry shave

Without shaving cream, the razor should not exist. If you want to avoid ingrown hairs, scratches and skin irritation, make sure to always use a shaving cream!

Repetitive strokes

If you miss a spot during your shave, always apply new shaving cream before going over it again.

Using old barber blades

A healthy shaving blade should slide gently off your face and cut with painless precision.

Too much pressure

Lean your head to the side and let the blade rest on your face. This gives you a good idea of how little pressure is actually needed.

AROUND THE WORLD

Since 1990, the World Beard & Moustache Championships have been held around the world. Here, it is all about creativity and originality in terms of having the coolest look and a personal style. The German beard must be extraordinary, as they have won the most championships.

In **China**, a man was sentenced to 6 years in prison for the absurd reason that his beard was looking "too muslim".

In **India**, a man has become so famous for his beard that he has to wear a disguise in public. This may be difficult though, for someone who holds the Guinness record for the world's longest moustache.

In **Egypt**, a large scale investigation has been initiated after discovering that the beard of Tutankhamun has mysteriously fallen off and been glued back on. Perhaps it was just a clumsy janitor making a desperate attempt at hiding the fact that he had ruined one of the world's most ancient treasures.

**Classic Moustache**

1. Grow a beard.
2. Remove the parts of the beard that you do not wish to keep.

Use Barberians' Pre-shave oil to add a soft, protecting layer. Shave with Barberians' Razor. Finish off with Barberians' Face Cream & Aftershave.

3. Choose a moustache style and shape it using Barberians' Beard Oil.
